

## Arrow Exploration Corp. Confirms Issuance of Stock Options

**Calgary, Alberta – December 3, 2019** – ARROW Exploration Corp. (“**Arrow**” or the “**Company**”) (TSXV: AXL) announces the issuance last evening of a total of 150,000 stock options (“Options”), pursuant to the Company’s Stock Option Plan (the “Plan”) to a Director, previously appointed as announced on August 1, 2019, subject to regulatory approval. The Company has been in a share trading blackout since that time, which was lifted post market close on December 2, 2019. The 150,000 Options granted on December 2, 2019 have a strike price of CAD\$0.25, the closing market price of the Company’s common shares trading on the TSX Venture Exchange on December 2, 2019. The grant of Options is subject to regulatory approval. The Options were issued pursuant to the Plan, vest in thirds, with one third vesting upon each of the first, second and third anniversaries of issuance, and expire on December 2, 2029.

### About ARROW Exploration

Arrow Exploration Corp. (operating in Colombia via a branch of its 100% owned subsidiary Carrao Energy S.A.) is a publicly-traded company with a portfolio of premier Colombian oil assets that are under-exploited, under-explored and offer high potential growth. The Company’s business plan is to rapidly expand oil production from some of Colombia’s most active basins, including the Llanos, Middle Magdalena Valley (MMV) and Putumayo Basin. The asset base is predominantly operated with high working interests, and the Brent-linked light oil pricing exposure combines with low royalties to yield attractive potential operating margins. Arrow’s seasoned team is led by a hands-on and in-country executive team supported by an experienced board. Arrow is listed on the TSX Venture Exchange under the symbol “AXL”.

On November 28, 2019, the Company announced it has initiated a strategic alternatives process to be overseen by a Special Committee of the Board of Directors.
