Covid 19 and Operational Update

While the effects of the coronavirus and related oil price collapse are difficult to estimate and the situation remains dynamic, Arrow management and the Board are assessing all avenues to preserve shareholder value. These include shutting in production, deferring activities and G&A saving opportunities.

Arrow holds a hedge on Price, based on Ice Brent monthly average, between January 1, 2020 and June, 30, 2020, for up to 15,000 Bbls per month, with a cap of USD\$ 66.50 and a floor of USD\$ 62.00.

Shareholders who have travelled outside of Canada and returned after March 12, 2020, as well as shareholders who are sick, or showing any symptoms (such as fever, cough, fatigue), should not attend the Meeting in person.

Note that as the situation is rapidly evolving, there may be other precautions that may be required to be taken at the Meeting such as social distancing.

About ARROW Exploration
