Notes to the Interim Condensed Consolidated Financial Statements

September 30, 2020

1. Corporate Information

Arrow Exploration Corp. (“Arrow” or “the Company”) is a public junior oil and gas company engaged in the acquisition, exploration and development of oil and gas properties in Colombia and in Western Canada. The Company’s shares trade on the TSX Venture Exchange under the symbol AXL.

The head office of Arrow is located at 1430, 333 – 11th Ave SW, Calgary, Alberta, Canada, T2R 1L9 and the registered office is located at Suite 1600, 421 – 7th Avenue SW, Calgary, Alberta, Canada, T2P 4K9.

These interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes that the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. The Company had a net loss of \$24,280,091 for the nine months ended September 30, 2020 and had a working capital deficit of \$11,086,378 as at September 30, 2020. During 2020, oil and gas prices have been significantly depressed and the global impact of the COVID-19 pandemic has fostered a great deal of uncertainty for the future operations of the Company. The Company’s ability to continue as a going concern is dependent on management’s ability to identify additional sources of capital and to raise sufficient resources to fund ongoing operating expenses and commitments. There is no assurance these initiatives will be successful in the future. These conditions indicate the existence of material uncertainties that may cast significant doubt regarding the applicability of the going concern assumption. These condensed consolidated financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. These adjustments could be material.

2. Basis of Presentation

Statement of compliance

These condensed consolidated financial statements (the “Financial Statements”) have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting. These Financial Statements were authorised for issue by the board of directors of the Company on November 25, 2020. They do not contain all disclosures required by International Financial Reporting Standards (“IFRS”) for annual financial statements and, accordingly, should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2019.

These Financial Statements have been prepared on the historical cost basis, except for financial assets and liabilities recorded in accordance with IFRS 9. The Financial Statements have been prepared using the same accounting policies and methods as the consolidated financial statements for the year ended December 31, 2019.

In preparing these condensed consolidated financial statements, the significant judgements made by management in applying the group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended December 31, 2019.

Canada (ii)	387,558	395,562
	<u>\$ 441,284</u>	<u>\$ 449,288</u>

(i) Current restricted cash is comprised by a deposit held as collateral to guarantee abandonment expenditures related to the Mateguafa well in the Tapir block.

(ii) Pursuant to Alberta government regulations, the Company was required to pay a \$310,249 (CAD \$413,831) deposit with respect to the Company's liability rating management ("LMR"). The deposit is held by a Canadian chartered bank with interest paid to the Company on a monthly basis based on the bank's deposit rate. The remaining \$77,309 pertain to lease and other deposits held in Canada.

4. Trade and other receivables

	<u>\$ 1,994,174</u>	<u>\$ 3,927,725</u>

As at September 30, 2020, other accounts receivable include \$2,474,919 (December 31, 2019 – \$3,016,367) receivable from a partner in the Tapir block and corresponds to technical services, overhead, and reimbursable capital expenditures incurred by the Company on the Tapir block, of which \$1,746,000 million will be recovered through future production. The Company estimates that \$957,223 will be recovered in the next 12 months, therefore \$788,777 were classified as non-current. The remaining \$728,918 will be collected in cash within the next 12 months.

5. Taxes receivable

	September 30, 2020	December 31, 2019
Value-added tax (VAT) credits recoverable	\$ 1,558,622	\$ 1,776,582
Income tax withholdings and advances, net	1,152,034	572,961
	<u>\$ 2,710,656</u>	<u>\$ 2,349,543</u>

The VAT recoverable pertains to non-compensated value-added tax credits originated in Colombia as operational and capital expenditures are incurred. Most of the Company's sales are considered exports, which are not subject to VAT. The Company is entitled to claim for the reimbursement of these VAT credits.

On August 24, 2020, the Company announced the sale of its LLA-23 block to COG Energy Ltd. For a gross cash consideration of up to \$12 million (the "Sale Price") subject to the approval of the license transfer from the ANH. The Sale Price consists of a firm amount of US\$11.75 million, and a contingent payment amount of up to US\$0.25 million ("Contingent Payment"). The Contingent Payment shall be made to Arrow, in whole or in part, depending on the outcome of some specific matters. In addition to receiving the Sale Price, Arrow will transfer to COG its work obligations under various letters of credit in place to guarantee work commitments on LLA-23, as well as some underlying decommissioning and environmental liabilities.

September 30, 2020

As at September 30, 2020, the Company reviewed its cash-generating unit's ("CGU") for property and equipment and determined that there were no indicators of impairment. As at March 31, 2020, the Company reviewed its CGUs and determined that there were indicators of impairment present related to the decrease in prices and reserves. The company prepared estimates of both the value in use and fair value less costs of disposal of its CGUs and it was determined that carrying value of each CGU not exceeded its recoverable amount and, therefore, an impairment loss of \$27,263,110 is included in the consolidated statements of operations and comprehensive loss for the nine months ended September 30, 2020.

8. Promissory Note

The promissory note was issued to Canacol Energy Ltd. ("Canacol") as partial consideration in the acquisition of Carrao Energy S.A. from Canacol. The promissory note bears interest at 15% per annum, was initially due on January 28, 2019 and subsequently extended to April 30, 2019, October 1, 2020 and April 1, 2021. On December 31, 2019, Arrow and Canacol entered into a Third Amended and Restated Promissory. The principal amendments are the following:

- On or before April 1, 2021, the Company shall pay in full all accrued and outstanding interest owed until July 31, 2019 of \$628,767 (the "Interim Interest") plus interest on such sum at a rate of 15% from December 31, 2019 until the date of payment;
- Commencing September 1, 2019, and on the first day of each month thereafter, the Company shall make interest-only monthly payments equal to the total amount of interest on the principal sum plus interest on the interim interest sum, until paid in full; and
- Commencing April 1, 2021, and on the first day of each of the following nine months thereafter, the Company shall make equal monthly payments of the balance of the principal sum outstanding as of April 1, 2021 such that all remaining obligations are paid in full on or before September 1, 2021.

On March 19, 2020, a fourth amended and restated promissory note was agreed by the parties removing a two Canacol Directors requirement and temporarily waiving the change in control provision set forth in the third amendment, leaving all other amendments unchanged.

On August 3, 2020, the Company entered into a Fifth Amended and Restated Promissory Note with Canacol. Among other amendments, Canacol has agreed to forgive \$918,000 of accrued interest to date, in exchange for the Company providing full and perfected security to the Canacol over the shares of its operating subsidiaries in Panama. The interest forgiven has been recognized in the statement of net loss and comprehensive loss for the three and nine months ended September 30, 2020 as interest (income).

The Company has granted a general security interest to Canacol for the obligations under the Note which will be subordinated to second position in the event the Company secures additional financing.

9. Lease Obligations

A reconciliation of the discounted lease obligation is set forth below:

	2020
Obligation, beginning of the period	\$ 260,197
Changes in existing lease	(138,984)

As at September 30, 2020, the Company has the following future commitments associated with its office lease obligations:

Less than one year	\$ 22,513
2 – 5 years	<u>69,328</u>
Total lease payments	91,841
Amounts representing interest over the term	<u>(20,347)</u>
Present value of the net obligation	<u>\$ 71,494</u>

During 2020, the Company renegotiated its remaining lease agreement to reduce its leased corporate space and its related future lease obligation. As a result, the Company reduced its right-of-use assets in \$119,893 (net) and its lease obligation in \$138,984, and it recognized a gain in change of lease for \$19,091 in the consolidated statement of operations and comprehensive loss.

Only values related to non-compensatory warrants have been included in this table, do not include compensatory warrants included in equity and they expired during September 2020.

11. Long-term debt

During 2020, the Company received \$29,988 (CAD\$40,000) from the Canadian Emergency Business Account (CEBA) program implemented by the government of Canada to provide support to small businesses affected by the Covid-19 pandemic. The loan does not bear any interest until December 2022 and is subject to a 25% forgiveness if the full balance is repaid before that date.

12. Other Liabilities

The other liabilities of the Company relate to an environmental fee in Colombia that is levied on capital projects. The fee is calculated as 1% of the project cost. The program is administered by the Colombian National Authority of Environmental Licences ("ANLA") and is levied on projects that utilize surface water or deep water wells that may have an impact on the environment. The funds are generally used in the affected communities for purposes of land purchases, biomechanical works (e.g. containment walls in rivers), reforestation, research projects and others. At September 30, 2020 the Company had provided for \$1,007,849 (December 31, 2019 - \$1,007,849) for the environmental fee.

13. Decommissioning Liability

The following table presents the reconciliation of the beginning and ending aggregate carrying amount of the obligation associated with the decommissioning of oil and gas properties.

	September 30, 2020	December 31, 2019
Obligation, beginning of the period	\$ 8,173,222	\$ 5,833,563
Change in estimated cash flows	-	1,946,607
Obligations recognized	-	104,618
Liabilities disposed	-	(116,191)
Accretion expenses	462,402	382,997
Effects of movements in foreign exchange rates	(10,199)	21,628
Obligation, end of the period	\$ 8,625,425	\$ 8,173,222

The obligation was calculated using a risk-free discount rate range of 1.50% to 2.75% in Canada and 4.50% to 6.42% in Colombia with an inflation rate of 2.0% and 3.8%, respectively. It is expected that the majority of costs are expected to occur between 2021 and 2033. The undiscounted amount of cash flows, required over the estimated reserve life of the underlying assets, to settle the obligation, adjusted for inflation, is estimated at \$18,154,528.

During the nine and three months ended September 30, 2020 and 2019, the Company recognized \$263,614 and \$442,145, respectively, as share based payments expense, with a corresponding decrease or increase in the contributed surplus account.

(d) Phantom shares:

During 2020, the Company adopted a phantom share program for compensation of its executives and granted 13,000,000 phantom common shares of the Company which are vested immediately at CAD \$0.04 per share. As at September 30, 2020, the Company has recognized \$384,332 as share based payments, which are included in accounts payable and accrued liabilities at such date.

(e) Phantom stock options:

During 2020, the Company adopted a phantom stock option program for compensation of its executives and granted 1,681,000 phantom stock options of the Company which are vested in equal parts over the three following years after granted. As at September 30, 2020, these phantom stock options are off-the-money and, therefore, no accruals have been made at such date.

15. Commitments and Contingencies

Exploration and Production Contracts

The Company has entered into a number of exploration contracts in Colombia which require the Company to fulfill work program commitments and issue financial guarantees related thereto. In aggregate, the Company has outstanding exploration commitments at September 30, 2020 of \$23.8 million. The Company, in conjunction with its partners, have made applications to cancel a further \$15.5 million (\$5.79 million Arrow's share) in commitments on the Macaya and Los Picachos blocks. This request has been denied by the ANH. The remaining commitments are expected to be satisfied by means of seismic work, exploration drilling and farm-outs. Presented below are the Company's exploration and production contractual commitments at September 30, 2020:

Block	Less than 1 year	1-3 years	Thereafter	Total
LLA-23	-	6,000,000	-	6,000,000

Contingencies

From time to time, the Company may be involved in litigation or has claims sought against it in the normal course of business operations. Management of the Company is not currently aware of any claims or actions that would materially affect the Company's reported financial position or results from operations. Under the terms of certain agreements and the Company's by-laws the Company indemnifies individuals who have acted at the Company's request to be a director and/or officer of the Company, to the extent permitted by law, against any and all damages, liabilities, costs, charges or expenses suffered by or incurred by the individuals as a result of their service.

Letters of Credit

At September 30, 2020, the Company had obligations under Letters of Credit ("LC's") outstanding totaling \$12.3 million to guarantee work commitments on exploration blocks and other contractual commitments. Of the total, approximately \$11.9 million has been guaranteed by Canacol. Under an agreement, Canacol will continue to provide security for Arrow's Letters of Credit providing that Arrow uses all reasonable efforts to replace the LC's. In the case of the abandonment LC's on LLA-23, if the LC's have not been replaced by December 31, 2020, then Arrow will pay a 1% per annum fee, payable monthly until the LC's have been replaced. In the event the Company fails to secure the renewal of the letters of credit underlying the ANH guarantees, or any of them, the ANH could decide to cancel the underlying exploration and production contract for a particular block, as applicable. In this instance, the Company could risk losing its entire interest in the applicable block, including all capital expended to date and could possibly also incur additional abandonment and reclamation costs if applied by the ANH.

16. Financial Instruments

The Company holds various forms of financial instruments. The nature of these instruments and the Company's operations expose the Company to commodity price, credit and foreign exchange risks. The Company manages its exposure to these risks by operating in a manner that minimizes its exposure to the extent practical.

(a) Commodity price risk

Commodity price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in commodity prices. Lower commodity prices can also impact the Company's ability to raise capital. Commodity prices for crude oil are impacted by world economic events that dictate the levels of supply and demand. From time to time the

Arrow Exploration Corp.

Company may attempt to mitigate commodity price risk through the use of financial derivatives.

i) Financial Derivative Contracts

The Company has one financial derivative contract in order to manage commodity price risk. This instrument is not used for trading or speculative purposes. Arrow has not designated its financial derivative contract as effective accounting hedge, even though the Company considers the commodity contract to be an effective economic hedge. As a result, the financial derivative contract has been recorded on the statements of financial position at fair value, with the changes in fair value being recognized as an unrealized gain or loss in the statement of operations and comprehensive loss.

The estimated fair value of the derivative financial instrument in Level 2 at each measurement date have been determined based on appropriate internal valuation methodologies and/or third party indications. Level 2 fair values determined using valuation models require the use of assumptions concerning the amount and timing of future cash flows and discount rates. In determining these assumptions, the Company primarily relied on external, readily-observable quoted market inputs as applicable, including crude oil forward benchmark commodity prices and volatility, and discounted to present value as appropriate. The resulting fair value estimates may not necessarily be indicative of the amounts that could be realized or settled in a current market transaction and these differences may be material. The realized gain on risk management activities is included as part of revenues in the consolidated statements of operations and comprehensive loss. The gains on risk management activities for the nine months ended September 30, 2020 are comprised as follows:

	For the nine months ended	
	September 30	
	2020	2019
Realized risk management gain on commodity contract settled	\$ 1,288,523	\$ 92,977
Unrealized gain on commodity contract outstanding	-	409,860
	\$ 1,288,523	\$ 502,837

(b) Credit Risk

Credit risk reflects the risk of loss if counterparties do not fulfill their contractual obligations. The majority of the Company's account receivable balances relate to petroleum and natural gas sales and balances receivables with partners in areas operated by the Company. The Company's policy is to enter into agreements with customers that are well established and well financed entities in the oil and gas industry such that the level of risk is mitigated. In Colombia, a significant portion of the trade accounts receivable balance is with one commodity trader, which accounts for more than 65% of such balance, under an existing sale/offtake agreement with prepayment provisions and priced using the Brent benchmark. Other accounts receivable include a significant balance with a partner with an existing agreement to use 50% of its production entitlement to repay this balance.

The Company's trade account receivables primarily relate to sales of crude oil and natural gas, which are normally collected within 25 days (in Canada) and 45 days (in Colombia) of the month of production. Other accounts receivable mainly relate to balances owed by the Company's partner in one of its blocks, and are mainly recoverable through production. The Company has historically not experienced any collection issues with its customers and partners.

(c) Market Risk

Market risk is comprised of two components: foreign currency exchange risk and interest rate risk.

i) Foreign Currency Exchange Risk

The Company operates on an international basis and therefore foreign exchange risk exposures arise from transactions denominated in currencies other than the United States dollar. The Company is exposed to foreign currency fluctuations as it

Arrow Exploration Corp.
Notes to the Interim Condensed Consolidated Financial Statements
In United States Dollars
(Unaudited)

holds cash and incurs expenditures in exploration and evaluation and administrative costs in foreign currencies. The Company incurs expenditures in Canadian dollars, United States dollars and the Colombian peso and is exposed to fluctuations in exchange rates in these currencies. There are no exchange rate contracts in place.

ii) Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company is not currently exposed to interest rate risk as it borrows funds at a fixed coupon rate of 15% on the promissory notes.

(d) Liquidity Risk

Liquidity risk includes the risk that, as a result of the Company's operational liquidity requirements:

- The Company will not have sufficient funds to settle a transaction on the due date;
- The Company will be forced to sell financial assets at a value which is less than what they are worth; or
- The Company may be unable to settle or recover a financial asset.

The Company's approach to managing its liquidity risk is to ensure, within reasonable means, sufficient liquidity to meet its liabilities when due, under both normal and unusual conditions, without incurring unacceptable losses or jeopardizing the Company's business objectives. The Company prepares annual capital expenditure budgets which are monitored regularly and updated as considered necessary. Petroleum and natural gas production is monitored daily to provide current cash flow estimates and the Company utilizes authorizations for expenditures on projects to manage capital expenditures. Any funding shortfall may be met in a number of ways, including, but not limited to, the issuance of new debt or equity instruments, further expenditure reductions and/or the introduction of joint venture partners.

(e) Capital Management

The Company's objective is to maintain a capital base sufficient to provide flexibility in the future development of the business and maintain investor, creditor and market confidence. The Company manages its capital structure and makes adjustments in response to changes in economic conditions and the risk characteristics of the underlying assets. The Company considers its capital structure to include share capital, bank debt (when available), promissory notes and working capital, defined as current assets less current liabilities. In order to maintain or adjust the capital structure, from time to time the Company may issue common shares or other securities, sell assets or adjust its capital spending to manage current and projected debt levels. The Company monitors leverage and adjusts its capital structure based on its net debt level. Net debt is defined as the principal amount of its outstanding debt, less working capital items. In order to facilitate the management of its net debt, the Company prepares annual budgets, which are updated as necessary depending on varying factors including current and forecast crude oil prices, changes in capital structure, execution of the Company's business plan and general industry conditions. The annual budget is approved by the Board of Directors and updates are prepared and reviewed as required.

The Company's capital includes the following:

	September 30, 2020	December 31, 2019
Working capital (deficit)	(5,592,064)	(2,863,641)
Promissory note	(5,494,314)	(5,714,076)
	\$ (11,086,378)	\$ (8,577,717)

The current challenging economic climate may lead to further adverse changes in cash flows, working capital levels and debt balances, which may also have a direct impact on the Company's operating results and financial position. These and other factors may adversely affect the

Company's liquidity and its ability to generate income and cash flows in the future. At September 30, 2020, the Company remains in compliance with all terms of its debt and, based on current available information, management expects to comply with all terms during the subsequent 12 months period. However, in light of the current volatility in commodity prices and uncertainty regarding the timing for recovery in such prices and the effect of the Covid-19 pandemic, the preparation of financial forecast is challenging.

17. Segmented Information

The Company has two reportable operating segments: Colombia and Canada. The Company, through its operating segments, is engaged primarily in oil exploration, development and production, and the acquisition of oil and gas properties. The Canadian segment is also considered the corporate segment. The following tables show information regarding the Company's segments for the three and nine months ended and as at September 30, 2020:

18. Subsequent events

On October 22, 2020, the Company announced that one of its subsidiaries secured a \$500,000 bridge loan with CEDCO (a subsidiary of COG Energy Ltd., the LLA-23 purchaser) the proceeds of which will assist the Company in meeting its near-term financial obligations and provide it with additional working capital as it moves towards the anticipated closing of the sale of the LLA-23 Block. The loan has an annual interest rate of 6% and shall be repayable upon the earliest of: (i) the closing of the LLA-23 sale, or (ii) the receipt of certain Value-Added Tax ("VAT") refunds in Colombia, or (iii) where the closing of the LLA-23 sale is delayed after December 31, 2020 or does not occur, or where is terminated, either in cash or through the delivery of an equivalent value of crude oil produced from the LLA-23 Block and the Tapir Block. The balance of this bridge loan and interest was fully paid in early November 2020.
