About ARROW Exploration

Arrow Exploration Corp. (operating in Colombia via a branch of its 100% owned subsidiary Carrao Energy S.A.) is a publicly-traded company with a portfolio of premier Colombian oil assets that are under-exploited, under-explored and offer high potential growth. The Company’s business plan is to expand oil production from some of Colombia’s most active basins, including the Llanos, Middle Magdalena Valley (MMV) and Putumayo Basin. The asset base is predominantly operated with high working interests, and the Brent-linked light oil pricing exposure combines with low royalties to yield attractive potential operating margins. Arrow’s 50% interest in the Tapir Block is contingent on the assignment by Ecopetrol SA of such interest to Arrow. Arrow’s seasoned team is led by a hands-on executive team supported by an experienced board. Arrow is listed on the TSX Venture Exchange under the symbol “AXL”.
