Corporate Presentation

Disclaimer

IMPORTANT INFORMATION

The content of information contained in this presentation (the "Presentation") has not been approved by an authorised person within the meaning of the Financial Services and Markets Act 2000 ("FSMA"). Reliance upon this Presentation for the purpose of engaging in any investment activity may expose an individual to a significant risk of losing all of the property or other assets invested. If any person is in any doubt as to the contents of this Presentation, they should seek independent advice from a person who is authorised for the purposes of FSMA and who specialises in advising in investments of this kind.

The information contained in this Presentation has been prepared by the Company as at the date of this Presentation and is subject to updating, completion, revision, further verification and amendment without notice. No third party has independently verified any of the information contained in this Presentation.

The Company does not undertake any obligation to provide any additional information or to update this Presentation or any additional information or to correct any inaccuracies in any such information which may become apparent. This document sets out certain features of the Company and does not purport to provide a complete description of the Company or the shares in the Company.

No reliance may be placed for any purpose whatsoever on the information contained in this Presentation or on its completeness, accuracy or fairness thereof, nor is any responsibility accepted for any errors, misstatements in, or omission from, this Presentation or any direct or consequential loss however arising from any use of, or reliance on, this Presentation or otherwise in connection with it.

This Presentation does not constitute, or form part of, an admission document, listing particulars or a prospectus relating to the Company, nor does it constitute, or form part of, any offer or invitation to sell or issue, or any solicitation of any offer to purchase or subscribe for, any shares in the Company nor shall it or any part of it, or the fact of its distribution, form the basis of, or be relied upon in connection with, or act as any inducement to enter into any contract therefor. This Presentation has not been reviewed or approved by or filed with any governmental body or agency.

Recipients and/or readers of this Presentation who are considering acquiring shares in the capital of the Company ("Shares") are reminded that in relation to any such purchase or subscription no reliance may be placed for any purpose on the information or opinions contained in this Presentation or on their completeness, accuracy or fairness. This Presentation is purely for information purposes.

No undertaking, representation, warranty or other assurance, express or implied, is made or given by or on behalf of the Company or any of its directors, officers, partners, employees, agents or advisers, or any other person (collectively, "Representatives"), as to the accuracy or completeness of the information or opinions contained in this Presentation. Accordingly, no responsibility or liability is accepted by any of them for any such information or opinions or for any errors, omissions, misstatements, negligence or otherwise for any other communication, written or otherwise, but except that nothing in this paragraph will exclude liability for any undertaking, representation, warranty or other assurance made fraudulently. In addition, no duty of care or otherwise is owed by the Company, nor any Representatives for any loss, cost or damage suffered or incurred as a result of the reliance on such information or opinions or otherwise arising in connection with this Presentation. To the fullest extent permissible by law, the Company and the Representatives disclaim any and all liability, whether arising in tort, contract or otherwise, which they might otherwise have in respect of this Presentation.

This Presentation may not be reproduced, redistributed or passed to any other person or published in whole or in part for any purpose. By accessing this document, you agree to be bound by the limitations and restrictions set out above.

Neither this Presentation nor any copy of it may be taken or transmitted into or distributed in Canada, Australia, Japan, South Africa, Hong Kong or any other jurisdiction which prohibits such taking in, transmission or distribution, except in compliance with applicable securities laws. Any failure to comply with this restriction may constitute a violation of United States or other national securities laws.

The Company's Shares have not been, and are not expected to be, registered under the United States Securities Act 1933, as amended, (the "US Securities Act") or under the securities laws of any other jurisdiction, and are not being offered or sold, directly or indirectly, within or into Canada, Japan, Australia, the Republic of South Africa or Hong Kong or to, or for the account or benefit of, or any national, citizen or resident of the US, Canada, Japan, Australia, the Republic of South Africa or Hong Kong, unless such offer or sale would qualify for an exemption from registration under the US Securities Act and/or exemption from registration and/or prospectus requirements any other applicable securities laws.

This Presentation or documents referred to in it may contain forward looking statements. These statements relate to the future prospects developments and business strategies of the Company and its subsidiaries (the "Group"). Forward looking statements are identified by the use of such terms as "believe", "could", "envisage", "estimate", "potential", "intend", "may", "plan", "will" or the negative of those, variations or comparable expressions, including references to assumptions. The forward looking statements contained in this Presentation are based on current expectations and are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied by those statements. If one or more of these risks or uncertainties materialises, or if underlying assumptions prove incorrect, the Group's actual results may vary materially from those expected, estimated or projected. Given these risks and uncertainties, potential investors should not place any reliance on forward looking statements. These forward looking statements speak only as at the date of this Presentation.

To the extent that this Presentation contains statements regarding the past performance of the Company's Shares it should be noted that past performance cannot be relied upon as a guide to future performance.

This Presentation is for distribution in or from limited jurisdictions.

10 well drilling program

- 3 C7 wells at RCE, each expected to add 300-500 bbls/d net to Arrow.
- 3 wells at Carrizales Norte, each expected to add 300-500 bbls/d net to Arrow.
- 2 Gacheta wells at RCE, each expected to add 200-400 bbls/d net to Arrow.
- 2 wells at Oso Pardo, each expected to add 300-500 bbls/d net to Arrow.

\$32 million capital

- Budget funds targeting Colombia

Tapir 3D seismic program

- 134 km2 currently underway

Infrastructure

- Road and pad to Carrizales Norte
- Disposal well conversion at RCE
- G&G studies
- Maintenance capex at Ombu and Canada

Committed to ESG Best Practices

Environment

Committed to limiting our impact on the climate, air, land and water by adhering to the highest standards of industry operating practices; support principles included in the UN's Sustainable Development Goals.

Community Involvement

Develop community partnerships based on collaboration and understanding the community's needs; encourage the contribution to communities by our employees, by ensuring opportunities to give and volunteer.

Stakeholder Engagement

Build positive relationships with stakeholders through communication based on honesty, transparency, proactivity, trust and respect.

People

Health and safety of all workers involved in our activities, as well as residents of the communities where we work, is a core value at Arrow; treat staff members with dignity, fairness and respect; follow applicable occupational health and safety legislation and industry recommended practices; support principles of the Universal Declaration of Human Rights.

We hire locally from areas where we operate – all our employees in Colombia, are Colombian.

Leadership & Governance

Arrow's Board is responsible for the governance of the Company's ESG commitments; the leadership team is accountable for implementing the ESG commitments; expectations communicated to the Company's workforce and contractors.

ESG In Action

Community Program: Aguachica (Communities of Loma de Corredor and La Ye Village)

In 2022, the Tapir operations have spent more than \$3 million with local companies and over \$450,000 on social and environmental projects.

Colombian Oil & Gas Industry

Key Takeaways

Attractive Fiscal Terms

Government very supportive of the oil and gas industry (40%+ country's exports)

Attractive fiscal terms including 8-14% royalties on Arrow's properties

Long-term, stable outlook for Colombia, one of South America's most fiscally responsible countries

Great Infrastructure

Abundant infrastructure with spare pipeline capacity and no bottlenecks

Ample export capacity including two port facilities on Caribbean coast

Brent Oil Pricing

Excellent pricing based on Brent less Vasconia Differential (\$2-\$5/bbl)

Tapir Netback

Brent Price	NB
\$80	\$57.24
\$70	\$49.44
\$60	\$44.16

Attractive Fiscal Terms

Still top decile fiscal regime worldwide.

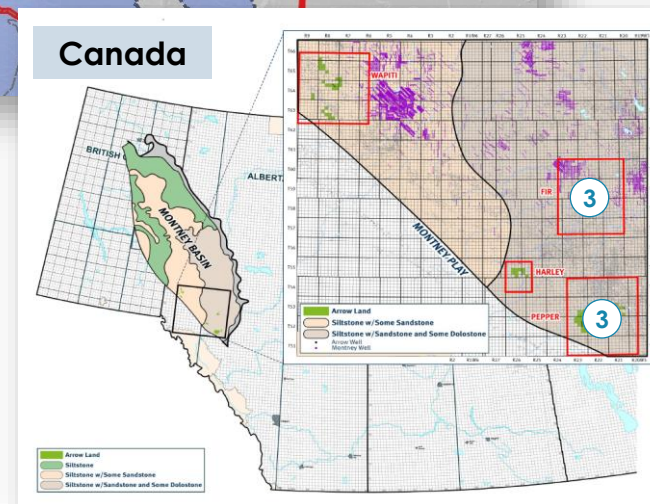

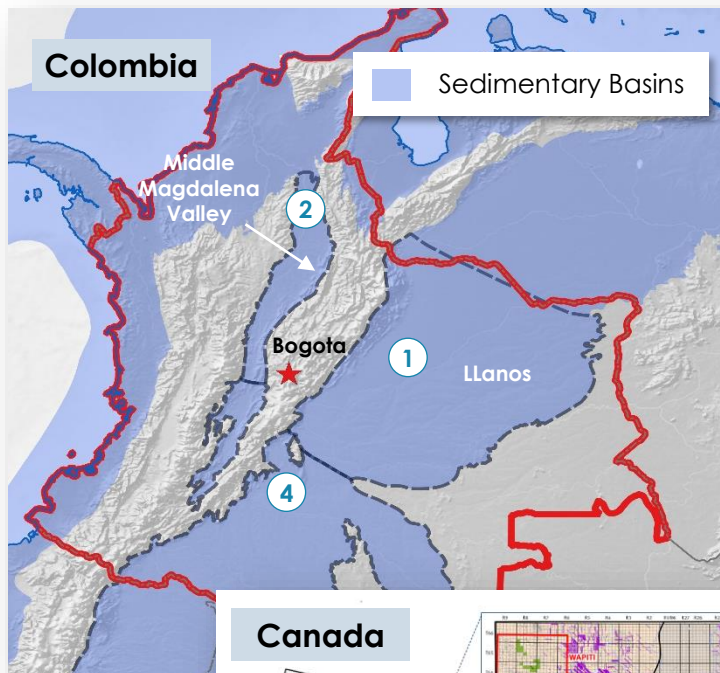

Asset Overview

	Asset	Country	Basin	W.I.	Current Production Capacity ⁽³⁾ (boe/d, net)	Operator

Colombian Oil Portfolio Llanos Basin

Llanos Basin

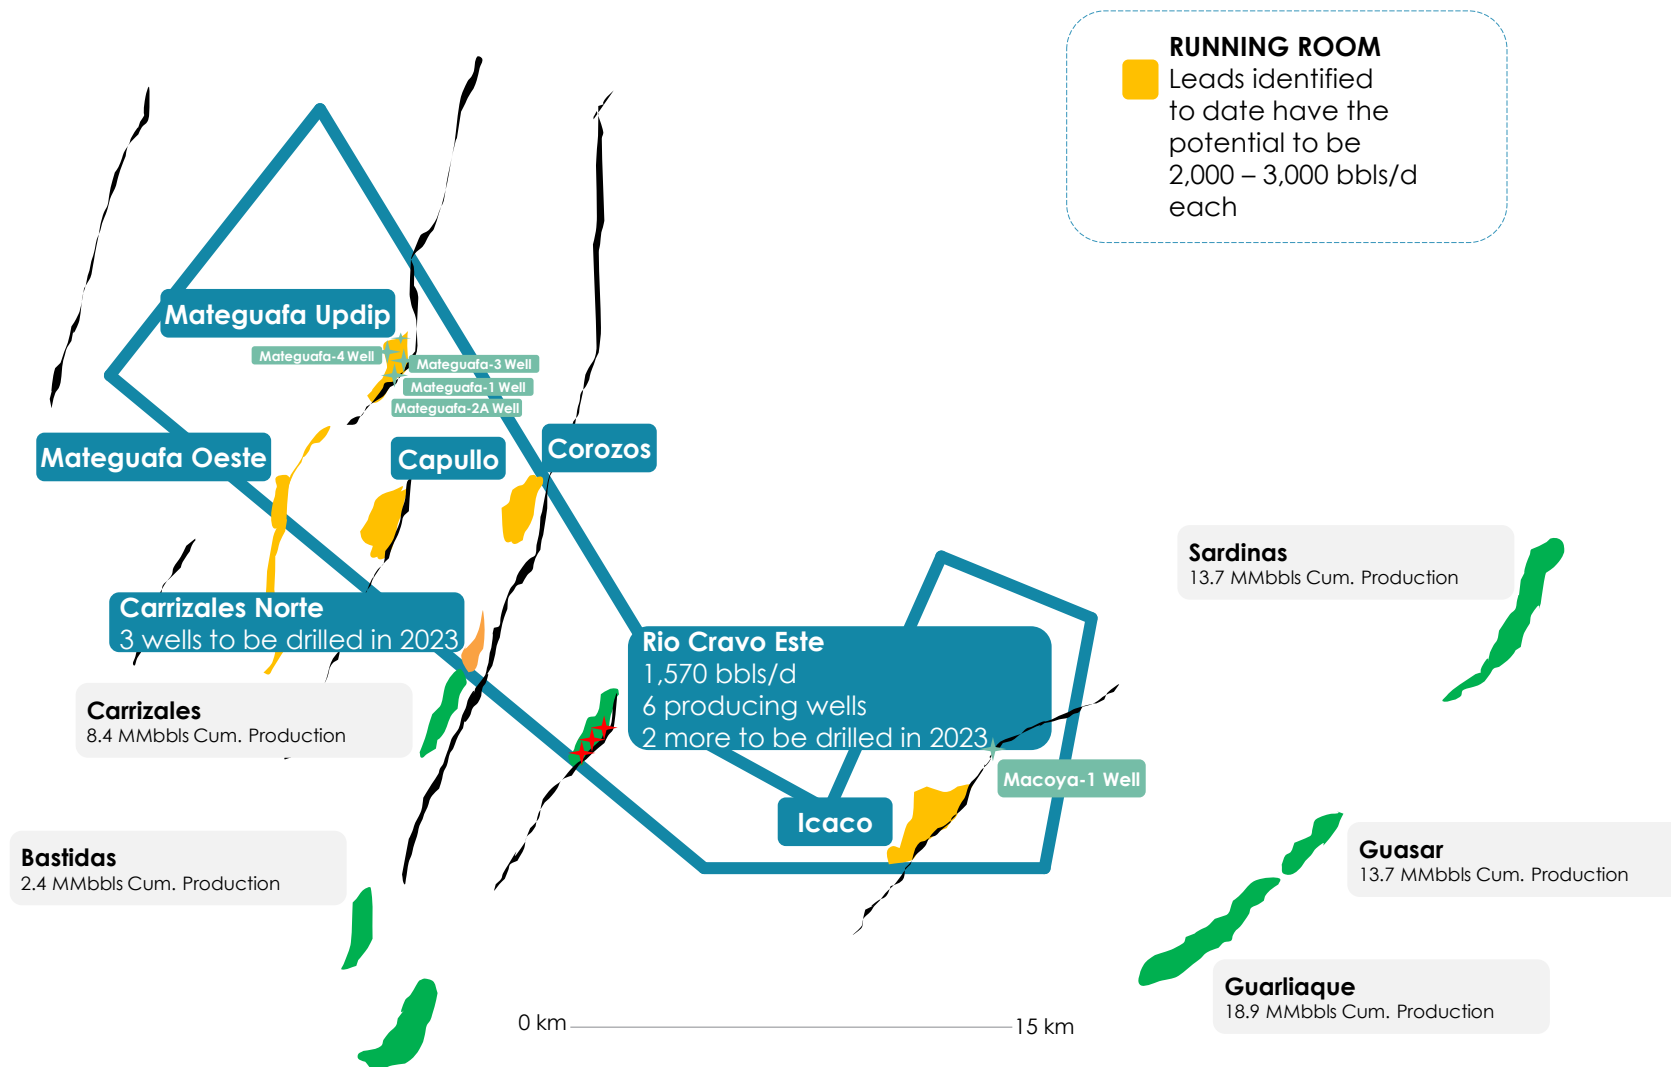

The 'Park Avenue' of Colombia's Oil Industry – Safe, Secure and Highly-Desirable

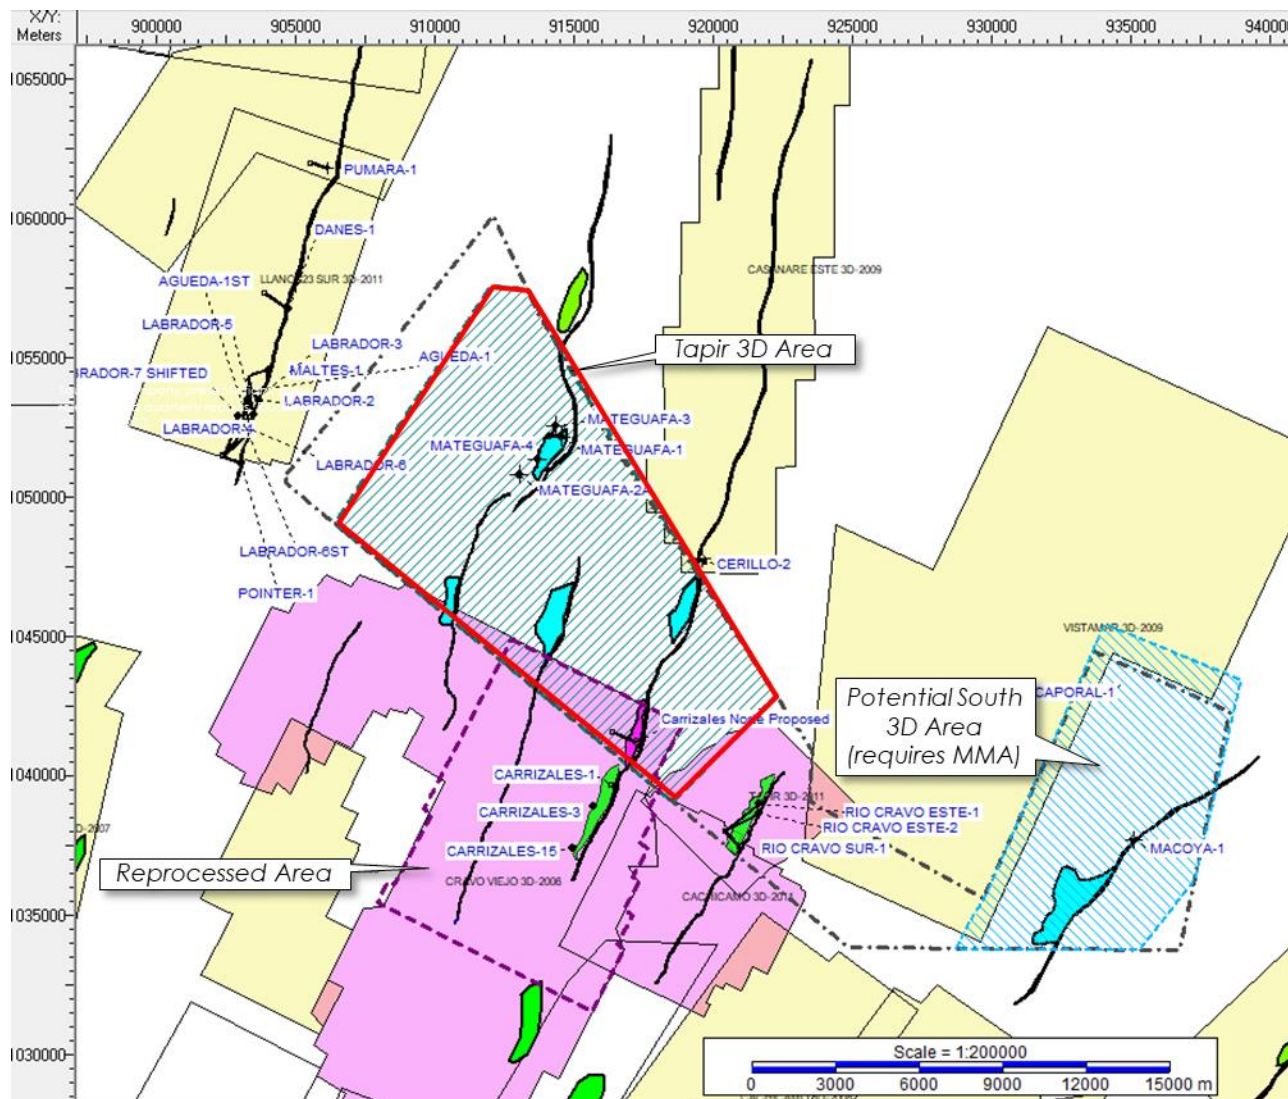

- Largely flat-lying areas with little vertical relief
- Year-round production (rainy season April-November)
- 80+ year history of hydrocarbon production
- Strong community support

Tapir Block: Proximate Field Production

38.5 MMbbls Produced¹

134 km² Tapir 3D Seismic Complete

- Arrow Owned or Purchased
- Available 3D Data for Purchase
- Proposed Tapir 3D (134 km²)
- Potential Tapir South 3D (70 km²)
- Cravo Viejo Reprocessing
- Oil Fields
- Prospects
- Leads
- Faults

Tapir Block: Features and Opportunities

1 Key Characteristics ...

Excellent subsurface fundamentals

Multiple high-quality reservoir targets

Multiple targets per well bore

Multiple opportunities with 3D seismic coverage

Substantial exploration upside

High chance of success based on 3D seismic

2 ... Drive Opportunities

Multiple prospects plus additional follow-up wells on success

Type-wells can deliver initial production (IP) of over 1,000 bbls/d

Historically, only 1 zone has been completed – opportunity to commingle zones

Potential for 4-5 wells at each of RCE and Carrizales Norte

Numerous leads identified with the existing 2D seismic grid

3D seismic shoot Complete will de-risk leads and build a drilling inventory

Current & Future Production

Tapir Block (50% W.I.)*

Overview

- RCE 2022 year-end 3P reserves of 4.724 MMbbls (gross) / 2.362 MMbbls (net to Arrow's W.I.)

1. Rio Cravo Este (RCE) appraisal (up to 5-6 wells)

- 6 producing wells, raising total production to 1,570 bbls/d

2. Carrizales Norte

- 3 new – low-risk step-out wells considered to be a new pool extension of the Carrizales Field

Rio Cravo Este Development Concept

Carrizales Norte Development Concept

Future Production

Carrizales Norte Prospect (50% W.I.*)

Overview

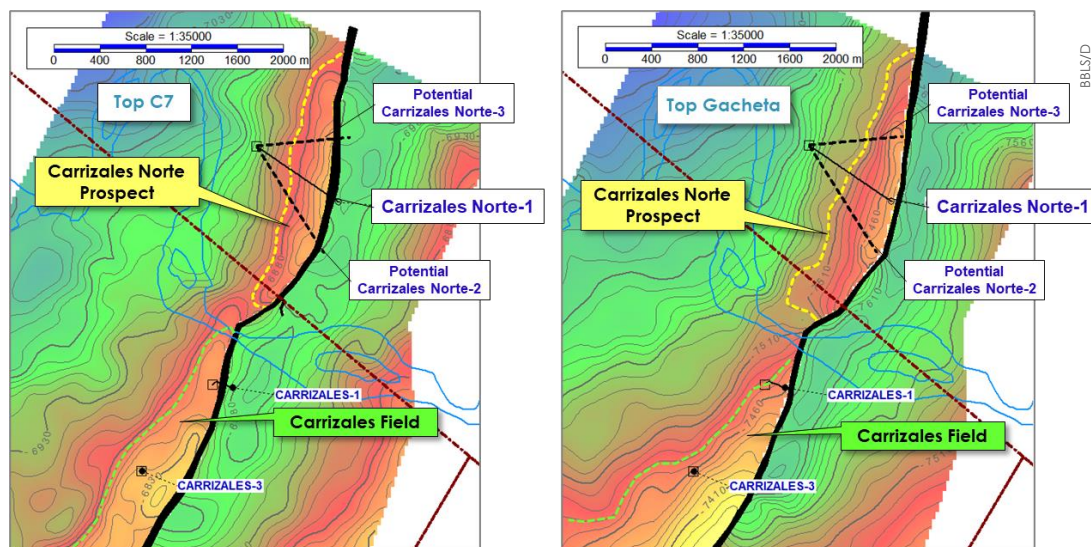

• Carrizales Field:

- Discovered by C&C Energia in 2007 with the Carrizales-1 well – led to \$500 million sale of C&C.
- 24 wells drilled to date; as of December 2019, the field had produced approximately 8.4 MMbbls oil and had achieved a peak production rate of 7,300 bbls/d

• Carrizales Norte – Civil and survey work underway:

- Potential for 4-5 development wells at Carrizales Norte, with Carrizales Norte -1 seen as a low-risk step-out well from the Carrizales Field
- Multi-zone potential (similar to RCE); within the vicinity of the Tapir block, the average peak or test rate from the three main producing formations is approximately 1,100 bbls/d; some rates in excess of 2,000 bbls/d
- Arrow estimates a very high chance of commercial success (over 90%)

Depth Structure Maps

Carrizales Norte Potential Production (net to Arrow)

Colombian Oil Portfolio MMV Basin

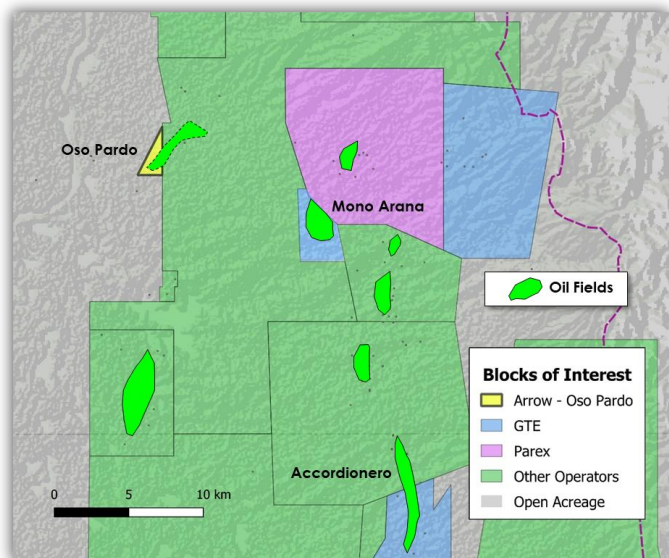

Current Production

Oso Pardo Field (100% W.I.)

Overview

- Discovered in 2013 by Canacol; discovery well (Oso Pardo-1) had an IP of 200 bbls/d from stacked sands of the Umir formation
- 2 appraisal wells drilled in 2014; 150 ft proven oil column to Lowest Known Oil (LKO)
- Accordionero (2P reserves of 66 MMbbls; current production of 16,000 boe/d) located 25 km to SE
- Arrow's Morsa-1 well re-started in June 2021 at 392 bbls/d; OP-1 and OP-2 wells re-started in July 2021 at 61 bbls/d combined
- Independent study by Gaffney, Cline & Associates supports a much larger field area than originally interpreted by Canacol

Location | Map

- Covered by 3D seismic – exclusive to Arrow
- Request to extend Oso Pardo Production License has been formally submitted to the ANH.

Oso Pardo Site Photos

Future Opportunity Not Factored Into Production Forecast

Oso Pardo Extension (100% W.I.)

Existing block does not require a bid process

Overview

- Gaffney, Cline & Associates reserve study* snapshot:

GCA Cases	Oil EUR/well (Mbbl)	Capex (\$M)	Pre-Tax NPV10% (\$M)
Low	343	\$65.5	\$24.9
Expected	480	\$122.7	\$146.5
High	705	\$251.1	\$547.8

Potential Field Development Configuration

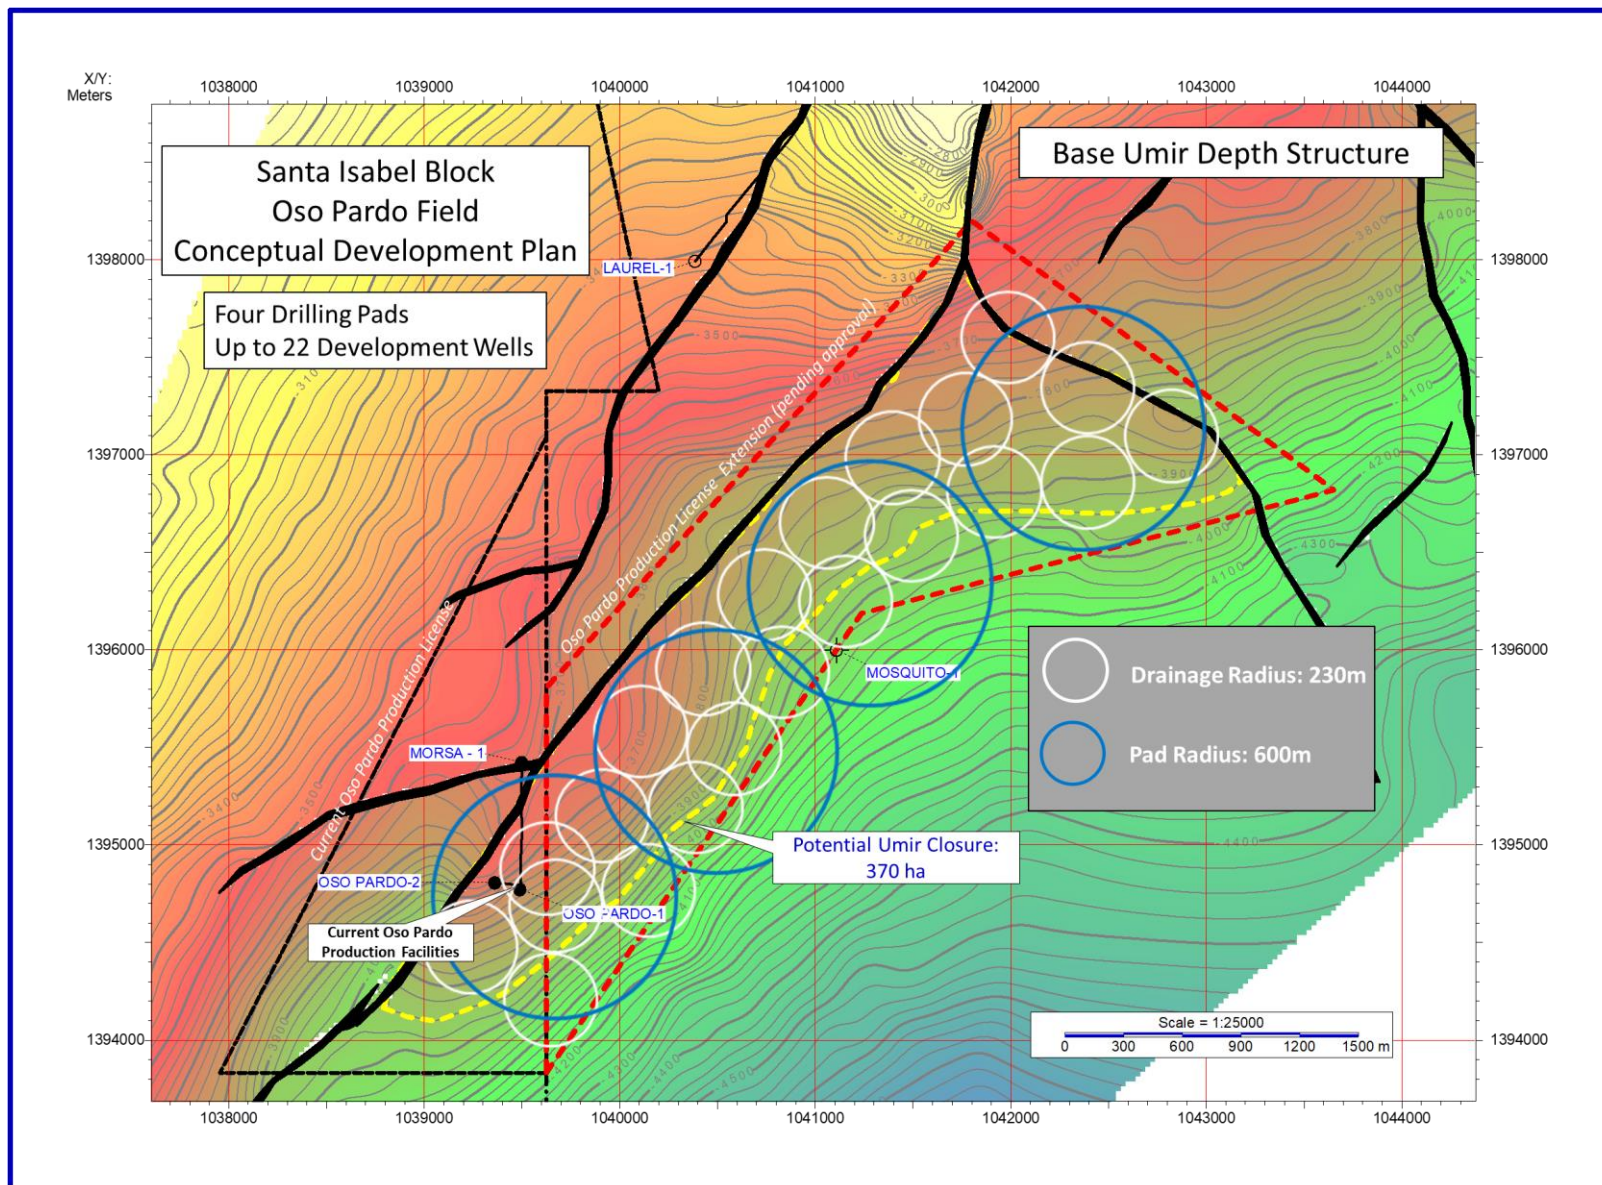

Oso Pardo Extension Potential Production Profile*

- Leveraging off the company's existing Oso Pardo development
- Arrow has applied for an extension to its existing license to cover the entire potential Oso Pardo development; Canacol has agreed to assist Arrow with obtaining the extension
- Based on P50 development size of 20 wells, Oso Pardo could contain 9.6MMbbls
- Potential capex of \$4.0M per well, ex. well-pad*
- Overall development has been modelled by Gaffney Cline as reaching as much as 4,000 bbls/d, 100% WI, in the P50 case*
- Opportunity for Arrow to develop at 100%

Appendix

RCE-5: Significant Pay Encountered

- The RCE-5 development well spud on March 19th and reached total depth on March 29th
- The well encountered a total of 90 feet net oil pay within the Carbonera C7 and Gacheta formations
- The Carbonera C7A sand was penetrated in an optimal structural location and is the thickest C7A sand encountered to date in the Rio Cravo Este field
- Well will be completed in the C7 and is expected to be on production by mid-April

Zone	Net Pay (ft)	API Gravity	Forecast Production Rate (bbl/d) *
Carbonera C7	36	~ 28° expected	400-800
Gacheta	54	N/A	No test planned

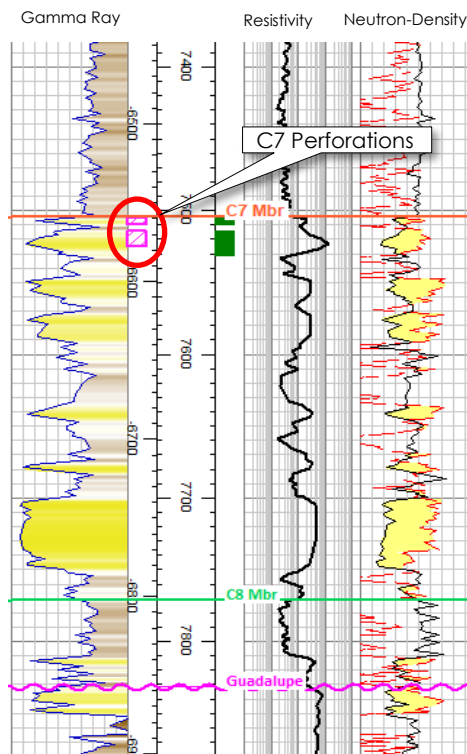

RCE-4: Record Drilling & Completion Operations

- The RCE-4 development well spud on March 1st and was placed on production March 17th – the fastest time required to drill and complete a well in the RCE field to date
- The well encountered a total of 45 feet net oil within the Carbonera C7 and Gacheta formations
- Within the Gacheta two pay zones have been identified
- Well has been completed in the C7 and is currently producing approximately 700 bbl/d of oil under controlled conditions

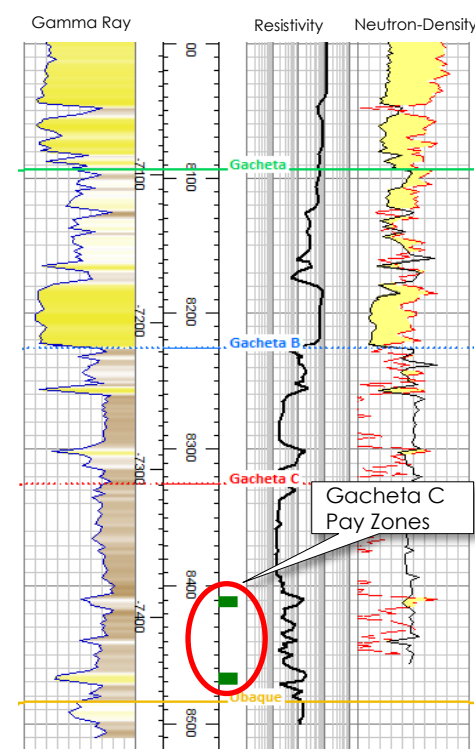

Zone	Net Pay (ft)	API Gravity	Forecast Production Rate (bbl/d) *
Carbonera C7	25	28.8	500-800
Gacheta	20	N/A	Not Tested

C7 Log Curves

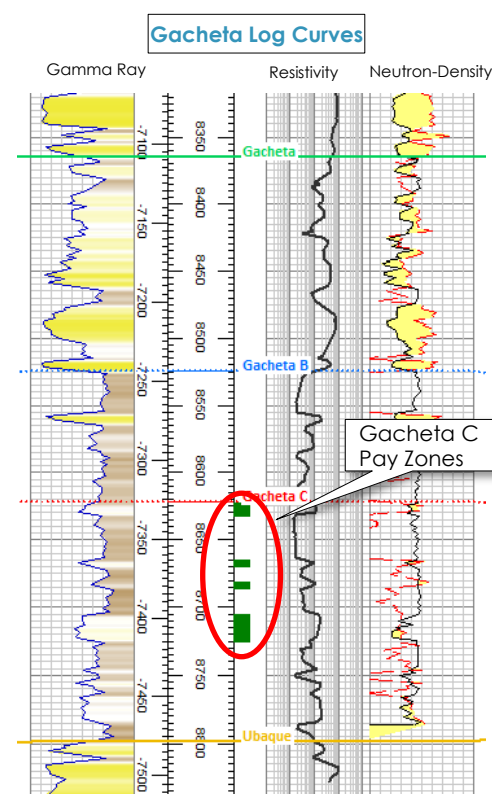

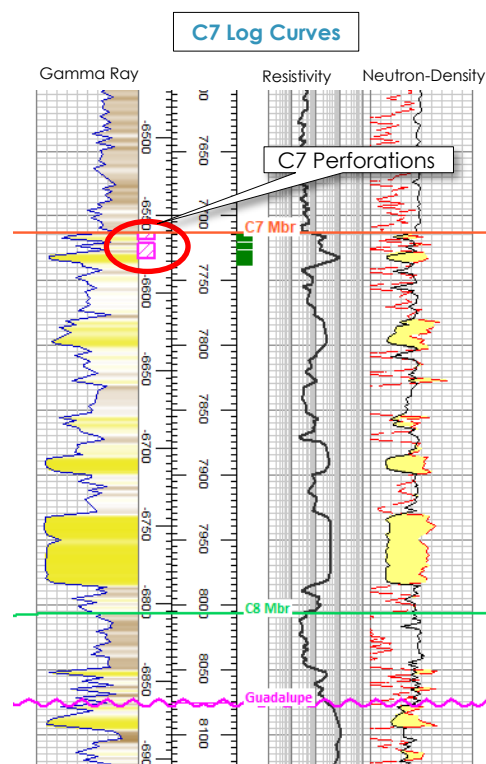

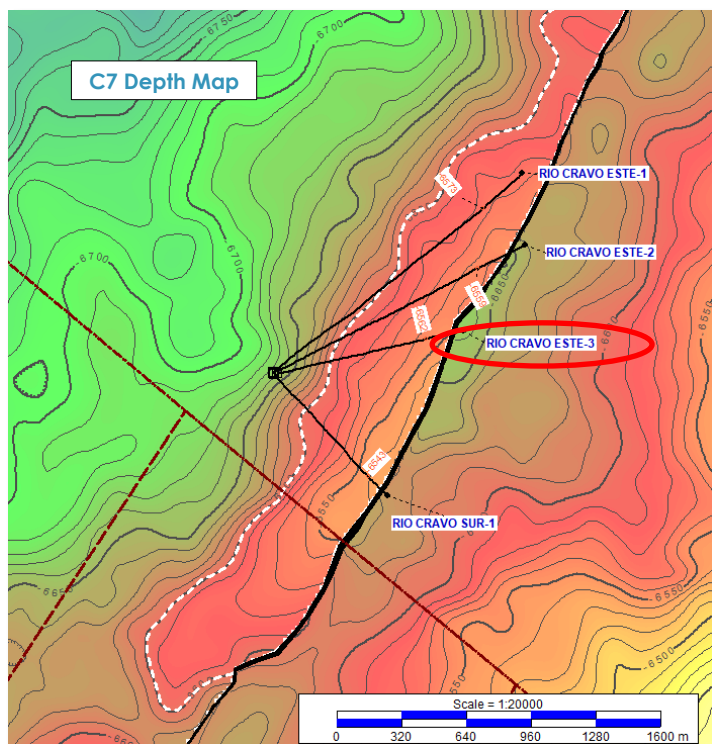

Gacheta Log Curves

Continued Success with Rio Cravo Este-3

- The RCE-3 appraisal well spud on Feb 8th and was placed on production Feb 28th
- The well encountered a total of 58 feet net oil within the Carbonera C7 and Gacheta formations
- Within the Gacheta four pay zones have been identified including a zone not encountered in previous wells
- Well has been completed in the C7 and is currently producing approximately 620 bbl/d of oil under controlled conditions

Zone	Net Pay (ft)	API Gravity	Forecast Production Rate (bbl/d) *
Carbonera C7	15	28.5	600-1000
Gacheta	32	N/A	Not Tested

Rio Cravo Este-2 Appraisal Success

Adding Material Production and Reserves

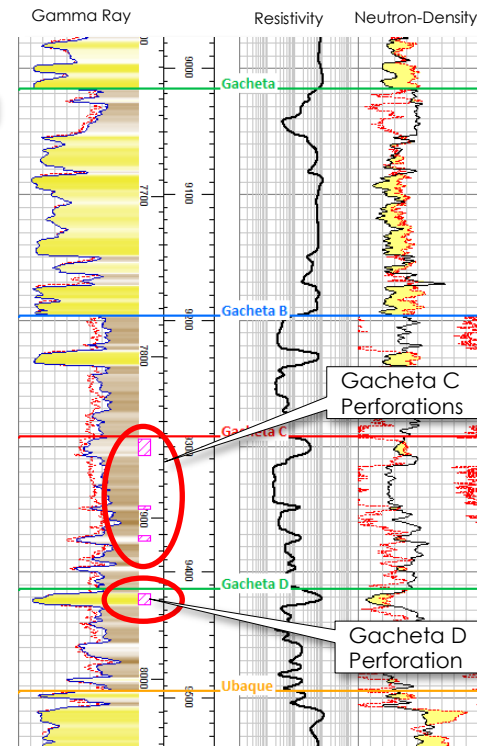

- RCE-2 spud on April 2, on production May 23
- Well was drilled closer to fault and formation tops are 15 to 40 feet higher than RCE-1
- Three production tests were conducted and proved a total of 66 feet net oil pay and a combined production potential of 2,900 bbl/day*
- Additional 24 feet of potential pay identified on logs
- Production currently from the C7A formation at 535 bbls/d net

Zone	Net Pay (ft)	Test Rate (bbl/d) *	API Gravity	Forecast Production Rate (bbl/d) *
Carbonera C7	27	1,199	28.7	1,000
Gacheta C	22	194	24.9	300
Gacheta D	17	579	13.4	600
TOTALS:	66	N/A	N/A	1,900

C7 Log Curves

Gacheta Log Curves

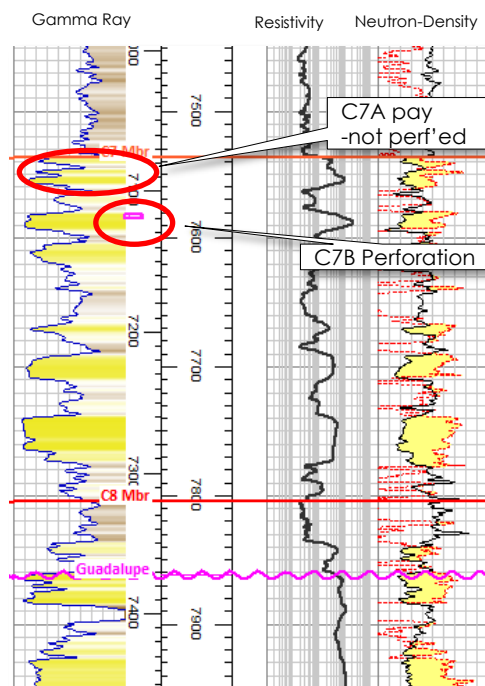

Rio Cravo Sur-1 Appraisal Success

New Producing Zones Encountered

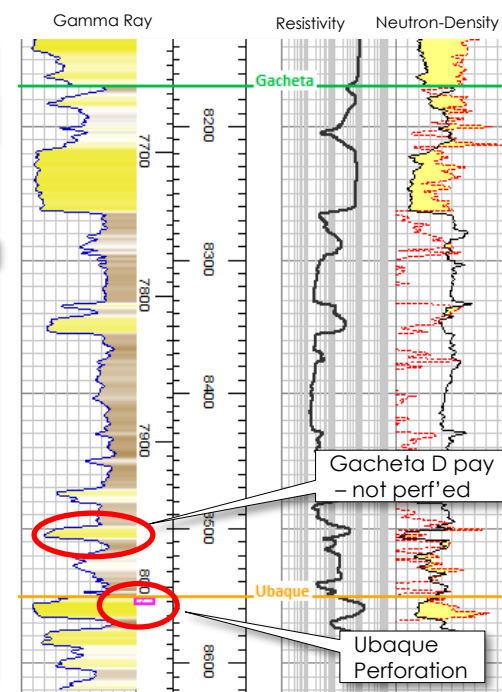

- RCS-1 spud on May 23 and on production as of June 29, 2022
- The well was drilled 1.3 km south of existing wells and has confirmed the mapped field extent
- Two new pay zones encountered: C7B and Ubaque
- Two production tests were conducted and proved a total of 28 feet net oil pay and a combined production potential of 1,700 bbl/day*
- Additional 22 feet TVD of potential pay identified on logs from proven oil-bearing zones in RCE-2
- On production from the C7B formation at a rate of 175 bbls/d net
- Q4 workover paid out in 17 days

Zone	Net Pay (ft)	Test Rate (bbl/d) *	API Gravity	Forecast Production Rate (bbl/d) *
Carbonera C7A	14	N/A	N/A	N/A
Carbonera C7B	12	1,872	30	1,000
Gacheta D	8	N/A	N/A	N/A
Ubaque	14	184	13	300
TOTALS:	49	N/A	N/A	1,300

Western Canada Gas Montney

Why Western Canada?

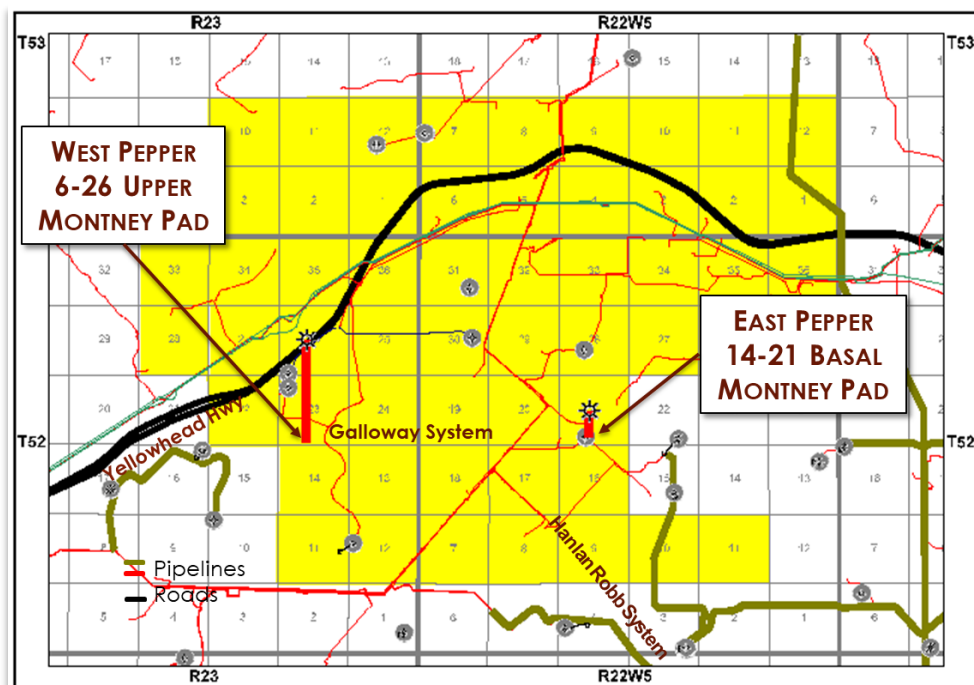

Current & Future Production

Canadian Montney Assets

Overview

- Low-risk, low-cost, behind-pipe natural gas discovery; production in a rising gas price environment in Alberta, Canada
- Arrow tied-in the 3-26 West Pepper Montney well in December 2021 at a cost of \$1.3 million, adding initial production of 1,100 boe/d
- East Pepper Montney well tied-in and producing

Location | Map

East Pepper

West Pepper

Non-Operated Production

Ombu Block (10% W.I.)

Overview

- 10% working interest in the Ombu Block which contains the Capella discovery, the largest oil discovery in Colombia in the past 20+ years
- Emerald Energy (Sinochem) is the operator
- 2020 Year-End Arrow 2P reserves of 4.0 MMbbls of 8–11 degree API heavy crude oil
- Production re-started in March 2021, interrupted by roadblocks, and re-started again in June 2021; high break-even oil price
- Estimated production of ~ 260 bbls/d, net to Arrow (estimated January 2022)
- Arrow's corporate philosophy is to have high working interests and operatorship; opportunity to exit this non-core asset
