### **Current Issued Share Capital**

Following the issue of the new Common Shares described above, and pursuant to 3,600,000 Common Shares that have been issued under the Company's current blocklisting in the month of October to date, the issued share capital of the Company will be comprised by 283,408,275 Common Shares with one vote per share.

This figure of 283,408,275 has been used in the calculations above and may be used as the denominator for the calculation by which they will determine if they are required to notify their interest in, or a change to their interest in, the share capital of the Company under the Financial Conduct Authority's Disclosure and Transparency Rules.

The Company expects to have further warrants exercised at the end of the October under its Blocklisting and will therefore provide a revised Total Voting Rights figure at the end of the October once remaining warrants have either been exercised or expired.

### **Advance to Management**

The Board of Directors have determined to provide loans to each of Messrs. Jull, Abbott and McFarlane (the "**Executives**"). The amount to be advanced to each Executive is \$225,000 which will be repaid from future remuneration or other sources. The loans are due on demand, or when the Executive ceases to be employed by the Company, or when the Executive sells any Common Shares.

The Executives will execute loan agreements in respect of the advances and have agreed to provide security acceptable to the Company. The advances will bear interest at the Bank of Canada prime rate. Terms of the loans were reviewed and approved by the independent directors of the Company. Under Canadian Securities law the advances are subject to Multilateral Instrument 61-101 (Protection of Minority Security Holders in Special Transactions) but are exempt from the requirement for formal valuation or minority shareholder approval as the Company is not listed on a specified market as defined in the Instrument and the fair market value of the loans is less than 25% of the market capitalization of the Company.

### **Admission of Shares to trading on AIM**

Save for the 28,561,684 new Common Shares to be issued to Canacol and Tim Leslie described above, all of the Common Shares issued and to be issued pursuant to the warrant exercises have already been admitted to trading on AIM pursuant to the Blocklisting as announced in the RNS dated 7 November 2022.

Accordingly, an additional application has been made for 28,561,684 new Common shares to be admitted to trading on AIM ("Admission"), with Admission expected to occur on or around 19 October 2023.
